

AGILE PROJECT PLAN TEMPLATE

PROJECT NAME		PROJECT MANAGER	START DATE	END DATE	OVERALL PROGRESS		PROJECT DELIVERABLE		SCOPE STATEMENT	
Downhill		Tommy Andrews	13-Jan	20-Apr	40%					
AT RISK	TASK NAME	FEATURE TYPE	RESPONSIBLE	STORY POINTS	START	FINISH	DURATION (DAYS)	STATUS	COMMENTS	
	Sprint 1		Tommy Andrews	16	1/14/21	2/3/21	22	Completed	During the sprint 1 the priority was given to planning and documentation. Two basic features were selected to be implemented, but will be enhanced during sprint 2.	
	Authentication and User Management	Epic	Juan Sebastian Hoyos	8	1/25/21	2/3/21	11	Completed	The Main functionality of authentication will be implemented and some small parts of user management will carry over sprint 2.	
	Adding inventory stock	User Story	Shahid Khan	8	1/20/21	2/3/21	16	Completed	This feature is a very big feature therefore it was split into two stories but the main epic spans over sprint 1 and sprint 2.	
	Sprint 2		Ashwin Philip	24	2/4/21	2/24/21	22	In Progress	Sprint 2 will be a high load in the development of the main features. During this sprint the enhancement of the inventory feature will be done as well as the addition of two complete new features.	
X	Accounting	Epic	Tommy Andrews	13	2/3/21	N/A	N/A	Delayed	All the purchases and sales payments will be displayed in a list that only accountants will have permission to access.	
X	Net Income Graph Generation	User Story	Kevin Marsolais	5	2/10/21	N/A	N/A	Delayed	Accountants can generate a graph of the net income of the company calculated from the "accounts payable" and the "accounts receivable".	
	Inventory Management Enrichment	User Story	Noah Freger	3	2/4/21	2/24/21	22	Completed	Inventory management employees will be able to modify the inventory by adding new inventory, or removing inventory. All authorized employees will be able to see the available inventory and existing products at the moment and filter them.	
	User Management	User Story	Juan Sebastian Hoyos	5	2/4/21	2/19/21	17	In Progress	System admins will be able to add/modify ERP users.	
	Transfers	User Story	Tommy Andrews	13	2/13/21	2/24/21	10	In Progress	Sales and procurement employees should be able to see placed orders and procurement requests. Authorized users will be able to add procurements manually and change an order/procurement's status.	
	Sprint 3				2/25/21	3/17/21	21			
	Accounts Payable/Receivable [Delayed]	User Story	Tommy Andrews	8	2/25/21	3/17/21	21	Not Started	All the payments will be displayed in lists that only accountants will have permission to access. Negative and positive payments will be visualized respectively as accounts payable and accounts receivable.	
	Net Income Graph Generation [Delayed]	User Story	Kevin Marsolais	5	2/25/21	3/17/21	21	Not Started	Accountants can generate a graph of the net income of the company calculated from the "accounts payable" and the "accounts receivable".	
	Module Permissions	User Story	Juan Sebastian Hoyos	5	2/25/21	3/17/21	21	Not Started	Accessing modules will be restricted to some user roles. System admins will be able to manage ERP user privileges (which modules are accessible) by changing their role in the User Management module.	
	Making Views Mobile-friendly	User Story	Noah Freger	8	3/25/21	3/17/21	21	Not Started	Users should be able to use the ERP in a browser on their mobile device. All views should be nicely displayed on this type of device.	
	Adding timestamps to needed entities	User Story	Ashwin Philip	3	2/25/21	3/17/21	21	Not Started	Insertions and updates for entities that are planned for tracking/reporting should have timestamps for insertion and update.	
	Transfers enrichment	User Story	Shahid Khan	5	2/25/21	3/17/21	21	Not Started	Enriching the transfers view.	
	Sprint 4				3/18/21	4/7/21	21			
	Assembly line	Epic		TBD				Not Started	The system will track the process of building parts and bikes. The assembly line will be simulated as an extra container the ERP will poll for information.	
	Report generation	User Story		TBD				Not Started	Users may request a report for the data they are seeing in a module. These reports will reflect the filters used by the user to narrow their search.	
	System trigger rules	Epic		TBD				Not Started	The system will have rules that trigger certain events for the update of items or the generation of a report. These rules will be activable by authorized users.	
	Generated report drives trigger	User Story		TBD				Not Started	Modules will trigger the addition of generated reports to their departments' Google drive folder automatically.	
	Vendor payment emails trigger	User Story		TBD				Not Started	When a vendor's payment is processed, subscribed sales employees will receive an email with details of the procurement.
