AGILE PROJECT PLAN TEMPLATE

Project Name		Project Manager		Start Date		End Date		Overall Progress		Project Deliverable	
Downhill		Tommy Andrews		13-Jan		20-Apr		70%		Scope Statement	
At Risk	Task Name	Feature Type	Responsible	Story Points	Start	Finish	Duration (Days)	Status	Comments		
	Sprint 1		Tommy Andrews	16	1/14/21	2/3/21	22	Completed	During the sprint 1 the priority was given to planning and documentation. Two basic features were selected to be implemented but will be enhanced during sprint 2		
	Authentication and User Management	Epic	Joan Sebastian Hoyas	8	1/25/21	2/3/21	11	Completed	The main functionality of authentication will be implemented and some small parts of user management will carry over sprint 2		
	Adding inventory stock	User Story	Shahid Khan	8	1/20/21	2/3/21	16	Completed	This feature is a very big feature therefore it was split into two states but the main epic spans over sprint 1 and sprint 2		
	Sprint 2		Ashwin Philip	24	2/4/21	2/24/21	22	In Progress	Sprint 2 will be a high load in the development of the main features. During this sprint the enhancement of the inventory features will be done as well as the addition of two complete new features.		
X	Accounting	Epic	Tommy Andrews	13	2/3/21	N/A	N/A	Delayed	All the purchases and sales payments will be deployed in a list that only accountants will have permission to access.		
X	Net Income Graph Generation	User Story	Kevin Marcolis	5	2/10/21	N/A	N/A	Delayed	Accountants can generate a graph of the net income of the company calculated from the "accounts payable" and the "accounts receivable".		
	Inventory Management Enrichment	User Story	Noah Freiger	3	2/4/21	2/24/21	22	Completed	Inventory management employees will be able to modify the inventory by adding new inventory, or removing inventory. All authorized employees will be able to use the provided inventory and selling products of the moment and filter them.		
	User Management	User Story	Joan Sebastian Hoyas	5	2/4/21	2/19/21	17	Completed	System admins will be able to add/remove ERP users		
	Transfers	User Story	Tommy Andrews	13	2/13/21	2/24/21	10	Completed	Sales and procurement employees should be able to see placed orders and procurement requests. Authorized users will be able to add procurements manually and change an order/procurement status		
	Sprint 3		Joan Sebastian Hoyas	26	2/25/21	3/17/21	21				
	Accounts Payable/Receivable (Delayed)	User Story	Ashwin Philip/Tigran Karapetian	8	2/25/21	3/17/21	21	Completed	All the payments will be displayed in lists that only accountants will have permission to access. Negative and positive payments will be visualized respectively as accounts payable and accounts receivable.		
	Net Income Graph Generation (Delayed)	User Story	Shahid Khan/Kevin Marcolis	5	2/25/21	3/10/21	14	Completed	Accountants can generate a graph of the net income of the company calculated from the "accounts payable" and the "accounts receivable".		
	Module Permissions	User Story	Joan Sebastian Hoyas	5	2/25/21	3/8/21	12	Completed	Accounting modules will be restricted to some user roles. System admins will be able to manage ERP user privileges (which modules are accessible) by changing their role in the User Management module.		
	Making Views Mobile-friendly	User Story	Abdalla Omon/Shaheed Khan	8	2/25/21	3/17/21	21	In Progress	User should be able to use the ERP in a browser on their mobile device. All views should be nicely displayed on this type of device.		
	Adding timestamps to needed entities	User Story	Sarah Ghorbali	3	2/25/21	3/5/21	9	Completed	Insertions and updates for entities that are planned for tracking/reporting should have timestamps for insertion and update		
	Transfers enrichment	User Story	Noah Freiger	5	2/25/21	3/17/21	21	Completed	Enriching the transfers view		
	Sprint 4			21	3/18/21	4/7/21	21				
	Assembly line	Epic	Noah Freiger	21	3/18/21	4/7/21	21	Not Started	The system will keep track of the assembly for the company's products. Bikes are made of parts, which are in turn made of materials and the process should be reflected through this module. The assembly line should be an external component with which the ERP communicates through HTTP requests.		
	Assembly Line Dashboard	Story	Joan Sebastian Hoyas	8	3/18/21	4/7/21	21	Not Started	The dashboard will show bikes in production and add users with the right permissions to mark some bikes as in production.		
	System trigger rules	Epic	Ashwin Philip	21	3/18/21	4/7/21	21	Not Started	The system will have rules that trigger certain events for the update of items or the generation of a report. These rules will be activatable by authorized users.		
	Report generation	User Story	Tommy Andrews	3	3/18/21	3/25/21	8	Not Started	Users may request a report for the data they are seeing in a module. These reports will reflect the filters used by the user to narrow their search		
	Generated report drives trigger	User Story	Sarah Ghorbali	5	3/18/21	4/7/21	21	Not Started	Modules will trigger the addition of generated reports to their departments' Google drive folder automatically		
	Vendor payment emails trigger	User Story	Kevin Marcolis	8	3/18/21	4/7/21	21	Not Started	When a vendor's payment is processed, subscribed sales employees will receive an email with details of the procurement
