For the coding conventions
Conventions

Layout Conventions

- write only one statement per line.
- write only one declaration per line
- Add at least one blank line between method definitions and property definitions
- Use parentheses to make clauses in an expression apparent
- private fields start with an underscore ex: private int _age
- Method names begin with an uppercase
- constants are all CAPS

Commenting Conventions

- Use documentation Comments (///) for all public methods and normal comments for private methods
- Place the comment on a separate line, not at the end of a line of code
- Begin comment text with an uppercase letter
- Insert one space between the comment delimiter (//) and the comment text

Structure Conventions

How to organize classes from top to bottom:

```
-private fields (top of the class)
-properties
-constructors
-methods (bottom of the class)
```
